

AMPLIFY STRENGTH.

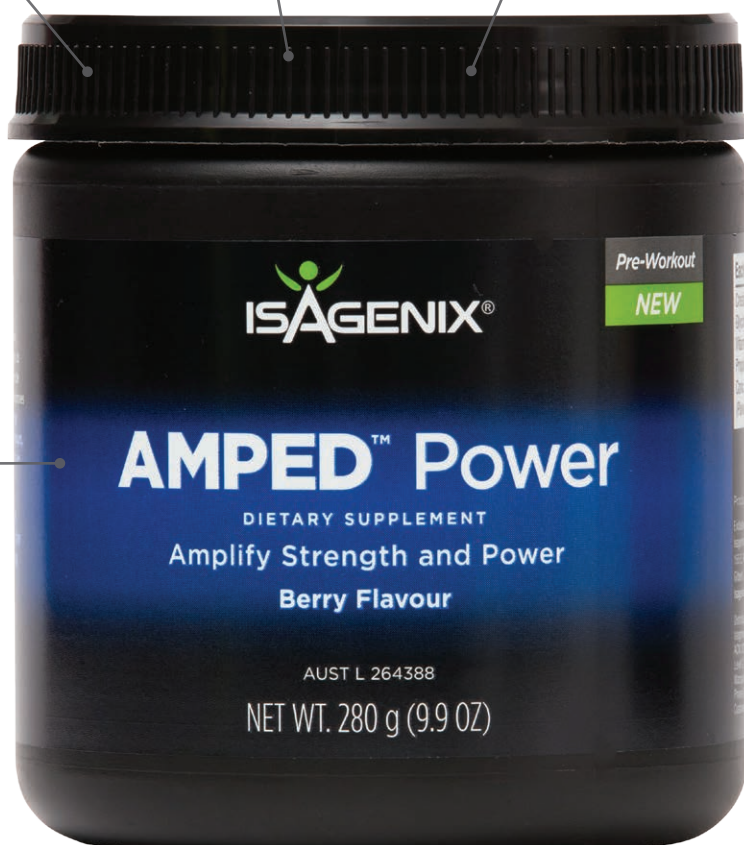

AMPED™ Power is designed to offer athletic support by preparing your body before a workout and helping to improve performance.

WHY YOU NEED AMPED POWER:

WHAT IS AMPED POWER?

A pre-workout supplement designed to improve strength and performance before exercise.

HOW IT WORKS:

Creatine in AMPED Power helps increase performance, power and strength while Glycine and L-carnitine help the body produce energy during your workout.

Perfect for:

- Adults 18+ who want to increase strength during workouts

Contact your Isagenix Independent Associate for more information:

WHAT MAKES AMPED POWER UNIQUE?

Creatine is a natural compound that helps supply energy to muscle. This supports increased power, strength and sprint speed over time. Creatine has been extensively studied for both its effectiveness and safety with long-term use. With Glycine and L-carnitine to provide athletic support, AMPED Power is a safe and effective blend designed to improve the overall results of your workouts.

The effectiveness of AMPED products depends on nutritional timing – when you take each product throughout your workout. There are three windows, pre-, mid- and post-workout, where these products are designed to help deliver results.

Vitamins can only be of assistance if the dietary vitamin intake is inadequate. Seek professional advice before long-term use.

Contains sugars. Vitamin supplements should not replace a balanced diet. If you are pregnant, nursing, diabetic, on medication or have a medical condition, consult your physician before using this product. Discontinue use if adverse reactions occur. For ages 18+.
