HOW ISALEAN PRO WORKS:

Lean muscle can help you achieve your health goals. Adults who want to build or maintain lean muscle need more quality protein throughout the day. Studies show that increased whey protein intake can help you stay full longer, boost muscle growth and increase fat burning.

DID YOU KNOW?

Whey protein is superior to soy protein for fat burning. IsaLean PRO features Myo-IsaLean Pro Complex™, which contains quality undenatured whey protein and a high concentration of branched-chain amino acids.

Whey protein has been proven to consistently deliver the best results for fat oxidation (aka "fat burning"). Acheson et al. 2011

Perfect For:

- Athletes and active adults
- Adults looking to prevent age-related muscle loss
- Those who want to bust through weight-loss plateaus

Dairy protein sourced from grass-fed cows not treated with hormones or routine antibiotics.
